PART 21. COLORADO LOW-INCOME HOUSING TAX CREDIT

## C.R.S. 39-22-2102 (2014)

## 39-22-2102. Credit against tax - low-income housing developments

- (1) For income tax years during the credit period, there shall be allowed to any qualified taxpayer a credit with respect to the income taxes imposed by this article in the amount determined by the authority pursuant to this part 21.
- (2) The authority may allocate a credit to an owner of a qualified development by issuing to the owner an allocation certificate. The authority may determine the time at which such allocation certificate is issued. The credit shall be in an amount determined by the authority, subject to the following guidelines:
- (a) The credit shall be necessary for the financial feasibility of such development;
  - (b) In no event shall a credit exceed thirty percent of the qualified basis of the qualified development;
  - (c) All allocations shall be made pursuant to the qualified allocation plan; and
  - (d) The aggregate sum of credits allocated annually shall not exceed the limits set forth in subsection (7) of this section, except for a qualified development that is located in a county that is designated by the qualified allocation plan as having been impacted by a natural disaster.
- (3) If an owner of a qualified development receiving an allocation of a credit is a partnership, limited liability company, S corporation, or similar pass-through entity, the owner may allocate the credit among its partners, shareholders, members, or other constituent taxpayers in any manner agreed to by such persons. The owner shall certify to the department the amount of credit allocated to each constituent taxpayer. Each constituent taxpayer shall be allowed to claim such amount subject to any restrictions set forth in this part 21.
- (4) No credit shall be allocated pursuant to this part 21 unless the qualified development is the subject of a recorded restrictive covenant requiring the development to be maintained and operated as a qualified development, and is in accordance with the accessibility and adaptability requirements of the federal tax credits and Title VIII of the "Civil Rights Act of 1968", as amended by the "Fair Housing Amendments Act of 1988", for a period of fifteen taxable years, or such longer period as may be agreed to between the authority and the owner, beginning with the first taxable year of the credit period.
- (5) The authority shall not allocate a credit pursuant to this part 21 unless:

(a) The developer of the proposed qualified development has conducted a public hearing in the community in which the proposed qualified development is located concerning the project for which the allocation has been applied. At such hearing, the developer of the proposed qualified development shall specify the total cost of the project, the estimated present value of the allocation, and the estimated total amount of the allocation. Public comments and other information shall be solicited at the hearing. The hearing shall be recorded by the developer of the proposed qualified development and the developer shall make copies of the recording available to interested parties. The authority shall consider any comments or other information provided at the hearing when ranking an application for a credit pursuant to this section.

(b) The authority has obtained a written commitment approved by a public vote of the governing body of a local government to provide some monetary, in-kind, or other contribution benefitting the qualified development.

(6) The allocated credit amount may be taken against the taxes imposed by this article for each taxable year of the credit period. Any amount of credit that exceeds the tax due for a taxable year may be carried forward as a tax credit against subsequent years' income tax liability up to eleven tax years following the tax year in which the allocation was made and must be applied first to the earliest years possible. Any amount of the credit that is not used shall not be refunded to the taxpayer.

(7) During each calendar year of the two-year period beginning January 1, 2015, and ending December 31, 2016, the authority may allocate a credit, the full amount of which may be claimed against the taxes imposed by this article for each taxable year of the six-year credit period. The aggregate amount of all credits allocated by the authority in each calendar year of the two-year period beginning January 1, 2015, and ending December 31, 2016, shall not exceed the amount of:

(a) Five million dollars for credits allocated pursuant to subsection (1) of this section and section 39-22-2105 combined, except for an allocation made to a qualified development that is located in a county that is designated by the qualified allocation plan as having been impacted by a natural disaster.

(b) Unallocated credits, if any, for the preceding calendar years; and

(c) Any credit recaptured or otherwise returned to the authority in the calendar year.

(8) Unless otherwise provided in this part 21 or the context clearly requires otherwise, the authority shall determine eligibility for a credit and allocate credits in accordance with the standards and requirements set forth in section 42 of the internal revenue code; however, any combination of federal and state credits allowed shall be the least amount necessary to ensure the financial feasibility of a qualified development.

39-22-2103. Recapture

(1) As of the last day of any taxable year during the compliance period, if the amount of the qualified basis of a qualified development with respect to a taxpayer is less than the amount of the qualified basis as of the last day of the prior taxable year, then the amount of the taxpayer's state income tax liability for that taxable year shall be increased by the credit recapture amount.

(2) For purposes of subsection (1) of this section, the credit recapture amount is an amount equal to the aggregate decrease in the credit allowed to the taxpayer pursuant to this part 21 for all prior taxable years that would have resulted if the accelerated portion of the credit allowable by reason of this part 21 were not allowed for all prior taxable years with respect to the reduced amount of qualified basis described in subsection (1) of this section.

(3) For purposes of subsection (2) of this section, the accelerated portion of the credit for the prior taxable years with respect to any amount of qualified basis is the difference between:

(a) The aggregate credit allowed pursuant to this part 21, notwithstanding this subsection (3), for the years with respect to such qualified basis; and

(b) The aggregate credit that would be allowable pursuant to this part 21 for such years with respect to the qualified basis if the aggregate credit that would have been allowable, but for this subsection (3), for the entire compliance period were allowable ratably over fifteen years.

(4) In the event that recapture of any credit is required in any tax year, the return submitted for that tax year to the department shall include the proportion of credit required to be recaptured, the identity of each taxpayer subject to the recapture, and the amount of credit previously allocated to such taxpayer.
